NEXT OF KIN

In order that you're GP can do all they can to help, it is important that they are aware of your next of kin. It would be helpful, therefore if you could provide the information requested below. A Next of Kin is usually is a close family relative or relatives. Patients are often asked to nominate a next of kin when registering with their GP or if you are admitted to hospital. The practice will not be able to share any clinical information with the next of kin without written consent of the patient concerned. *(Readcode 9182)*

Name:			Relationship to you:		
Address:					
Mobile		Landline		Email	
Permission to contact next of kin in an emergency	YES / NO (*pleasecircle)*				

SIGNATURE OF PATIENT :	
OR SIGNATURE on behalf of a patient:	
DATE:	
Please note by signing this form you are consenting to receiving texts and emails from the practice	

We strongly recommended you book a free "NEW PATIENT HEALTH CHECK" appointment with a Health Care Assistant (adults only)

This gives you an opportunity to review and update your records and for you to discuss any health or lifestyle issues.

If you are on ANY repeat medication please also book an appointment with a GP.

SUPPLEMENTARY QUESTIONS

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP Practice and receive free medical care from that Practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP Practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from you GP Practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP Practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (eg. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick on of the following boxes:

a) ☐ I understand that I may need to pay for NHS treatment outside of the GP Practice

b) ☐ I understand I have a valid exemption from paying for NHS treatment outside of the GP Practice. This includes for example, an EHIC, or payment of the immigration Health Charge (2the surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested

c) ☐ I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

Please tick ☐ if you have an S1(e.g. you are retiring to the UK or you have been posted here by your employer for work or you live in the UK but work in another EEA member state). **Please give your S1 form to the Practice Staff**.

How will your EHIC/PRC/S1 data be used? By using your EHIC or PRC for NHS treatment costs your EHIC or PRC data and GP appointment data will be shared with NHS secondary care (hospitals) and NHS Digital solely for the purposes of cost recovery. Your clinical data will not be shared in the cost of the recovery process.

Your EHIC, PRC or S1 Information will be shared with The Department for Work and Pensions for the purpose of recovering your NHS costs from your home country.

SHARING YOUR NHS PATIENT DATA

Information sharing in the NHS is subject to rigorous regulation and governance to ensure your full identifiable and personal medical data is kept confidential and only ever seen by carefully vetted doctors, nurses and administrative staff responsible for overseeing your care.
With the development of information technology the NHS will increasingly be sharing key information from your GP medical notes with Out of Hours GP Services, Hospital A&E Units, Community Hospitals, Community Nurses all of whom may at various times in your life be looking after you. Sharing information can improve both the quality and safety of care you receive and in some cases can be vital in making life-saving decisions about your treatment.
There are currently two different elements of "sharing NHS patient information"

SCR = The NHS Summary Care Record
EDSM = The Enhanced Data Sharing Model "SystmOne"

We ask you please to read the information on this document carefully. Please complete the relevant fields on this form and return it to your GP surgery.

SCR = NHS SUMMARY CARE RECORD

Summary Care Records (SCR) - information for patients

Your Summary Care Record is a short summary of your GP medical records. It tells other health and care staff who care for you about the medicines you take and your allergies. This means they can give you better care if you need health care away from your usual doctor's surgery: Instances of this may be

"in an emergency"
"when you're on holiday"
"when your surgery is closed"
"at out-patient clinics"
"when you visit a pharmacy"

Ask your doctor to include additional information on your SCR
Clinicians are only allowed to access your SCR record if they are authorised to do so and, even then, only if you give your express permission. You will be asked if healthcare staff can look at your Summary Care Record every time they need to, unless it is an emergency, for instance if you are unconscious.
You can refuse if you think access is unnecessary.Over time, health professionals treating you may add details about any health problems and summaries of your care. Every time further information is added to your record, you will be asked if you agree (explicit consent).
Patients under 16 years have an NHS Summary Care Record created for them so if you are the parent or guardian of a child then please either make this information available to them or decide and act on their behalf .

EDSM = ENHANCED DATA SHARING MODEL "SYSTMONE

The database and software used to store your GP health record is called "SystmOne" it is a very secure national system used by over 2000 GP practices and 4800 NHS organisations including GP out of hour's services, children's

services, community services and some hospitals. All the GP Practices in the Newton Abbot locality use this same confidential clinical computer system. The system gives your GP the facility to share your record with other NHS health providers that use the same clinical computer system and are involved in your care for example the local Community Nurses who may look after you if you when you leave hospital or become terminally ill or housebound. Allowing your GP to share your record in the "SystmOne" database helps to deliver better and safer care for you. Those patients who choose to decline are able to determine if their data is "shared out" and/or "shared in"

Sharing OUT-Controls whether information recorded at our GP practice can be shared with other NHS health care providers.

Sharing IN-Determines whether or not our GP practice can view information in your record that has been entered by other NHS services who are providing care for you or who may provide care for you in the future (*that you have consented to share out*).

NHS PATIENT INFORMATION SHARING – MY CHOICES

Please complete and/or tick the grey boxes below to detail your personal decisions regarding the aspects of NHS patient data sharing:
It is very important you sign this form to say that you understand and accept the risks to your personal health care if you do decide to opt out of SCR or EDSM. Hand the completed form in to your GP Surgery; they will scan this form into your NHS GP Medical Records and enter the appropriate computer codes.
